

20W-24W LED MODULE & DRIVER FOR SUPER

1, Product name: LED MODULE & DRIVER

2, Product Model: LBD-S05-20 LED MODULE or LBD-S05-24 LED MODULE

3, Technical Parameters

- Power: 20W and 24W
- LED chip: Philips Lumileds
- LED Quantity: 12pcs LED 5050SMD
- LED driver: Philips Xitanium Xi FP 22W
- Input Voltage: AC 220-240V
- Frequency: 50/60Hz
- Power Factor: >0.95
- Flux efficiency: 130-140lm/W
- Working temperature: -40°C—50°C
- Optic angle: Type I,II,III,IV.
- Color Rendering Index: Ra≥70
- Color Temperature: 2700-6500K
- SP:8KV
- Life Span: ≥100 000Hrs
- Protection Class: Class II

The retrofit kit according to the customer's needs will be equipped with:

- connections for supports and fixings in accordance with the existing framework
- wired connection plate, including power supply, optical unit, protection system and network connection
- LED module with features according to requirements

The luminaire is equipped with multi-level dimmable power supply with interface device to remote control systems with standard protocols (DALI - 1-10V)
